Subject: FW: WD GENERAL: Draft Agenda for 9/1
Attachments: 9-1-16 Agenda.docx

The Polymet topic is simply to bring Bob up to speed on current events. I think we can simply provide a very brief outline of current and projected activities along with a list of major issues that we see going forward.

We will need a short briefing paper on PCS – We will discuss this in some detail assuming it will be an objection.

Although Central Fuels is not on the agenda we will add it unless we have some significant movement by the state. We will need a short briefing paper on this as well and be prepared to discuss in detail if we anticipate objection.

Please have these papers to me by noon on Tuesday. All addressees should plan to attend the general if available.
 thanks
